

Outstanda Reporting Access for School Leaders

Outstanda helps schools monitor growth in literacy, math, and critical thinking. Board members and superintendents can access reporting tools to oversee progress and support accountability.

Step 1: Create Your Free Account

1. Go to [**Outstanda website link**].
2. Sign up with your email.
3. Confirm your account using the link sent to your email.
4. Inform school admin you would like added for report access.

Step 2: Get Added by Your School

- The **school administrator** must add you to the school account with **Reporting Access**.
- Once added, you will be able to log in and view school-level and class-level reports.

Step 3: View Reports

- Reports show **how the school and classes are performing over time**.
- You will see trends in literacy, math, and critical thinking.
- **Important:** Individual student names are not shown. Reports focus on class and school growth.

Why This Matters

- Ensures that students are making progress each week.
- Allows leaders to identify where **intervention is needed** (classrooms or grade levels).
- Provides a transparent picture of growth for school oversight.
