Get Started with Outstanda

Outstanda helps you track your progress in reading, math, and critical thinking as well as complete fun workshops and access educational games.

Step 1: Make Sure You Have Email

- You need a personal email address to log in. (Do not use your school email)
- If you don't have one, ask your parent to help set it up.

Step 2: Create Your Account

- **If you are under 13:** Your parent will create the account for you. Ask them to set up their free account and then go to the parent page in the menu and add you.
- **If you are 13–17:** You or your parent can create the account.
- Create it here: hub.outstanda.org

    👉 All you need is access to your email. Links are used to log in.

Step 3: Log In

1. Check your email for a message from Outstanda.
2. Click the link in the email to log in.
3. You are now inside your account.

Step 4: Add Your Classes

- If your school is using Outstanda, your teacher will give you a class code.
- Enter the school and class codes to join your classes.

Step 5: You're Ready!

- Each week, you'll complete your Outstanda activities.
- Play games and build your deck outside school.
- Your teacher and parents can see your progress.

🔑 **Remember:** Keep your email password safe. Only you and your parents should know it.
